

Is Not About Work, Is To Make It Work

*Your Building Mechanical
Engineering Solutions*

ABOUT US

EPSIS has been actively involved in mechanical, electrical works since its incorporation in 2012.

Over the years, the company has evolved from sub-contracting services to becoming a trusted name in Heating, Ventilation, and Air-Conditioning (HVAC) solutions and engineering services across Malaysia. With our core values centered on quality, reliability, and innovation, we aim to deliver superior solutions tailored to our clients' needs.

Our key areas of operation include Heating, Ventilation, and Air-Conditioning (HVAC) system services, equipment supply, mechanical engineering, and consultancy, focusing on the commercial, industrial, and oil & gas sectors.

MISSION AND VISION

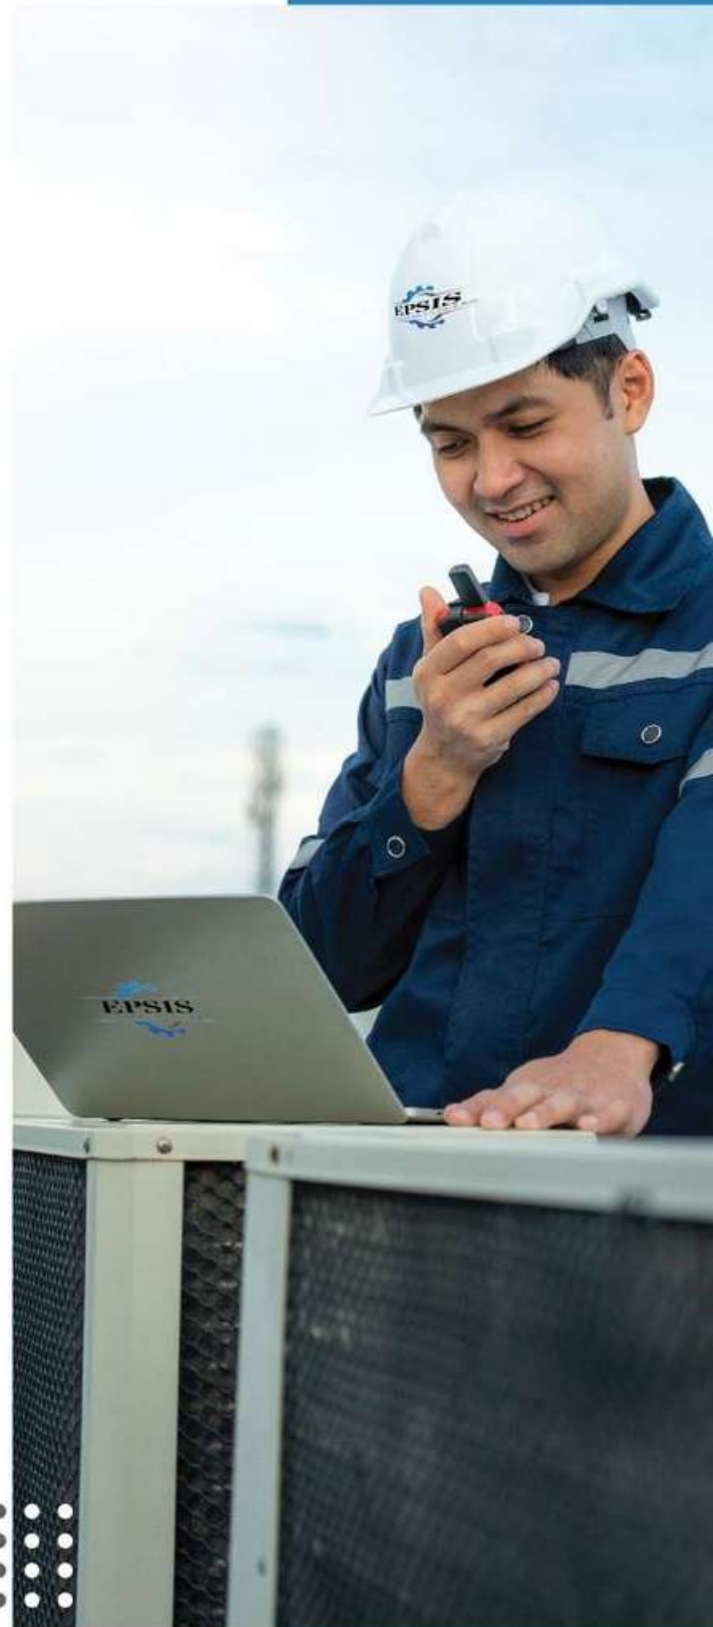

MISSION

Our mission is to deliver innovative, reliable, and sustainable Heating, Ventilation, and Air-Conditioning (HVAC) and engineering solutions that meet the highest standards of quality and safety. We are committed to fostering long-lasting relationships with our clients by consistently exceeding their expectations and providing value-driven services that help them succeed in their industries.

VISION

Our vision is to be recognized as a leading provider of cutting-edge Heating, Ventilation, and Air-Conditioning (HVAC) and engineering solutions across Malaysia and the Asian region. We aspire to set the industry standard for innovation, quality, and customer satisfaction while contributing to a more sustainable future.

OUR CORE VALUE

At EPSIS, our core values drive every aspect of our business and shape the way we serve our clients. We are committed to:

Integrity

We conduct our business with honesty and transparency, building trust with our clients, partners, and employees. We take pride in our ethical approach to every project.

Excellence

We strive for excellence in everything we do, from our high-quality services to our customer satisfaction. We continuously seek to improve and innovate, setting new benchmarks in the HVAC and engineering industries.

Collaboration

We believe in the power of teamwork and value the collaborative spirit. Our partnerships with clients and suppliers are built on mutual respect, open communication, and shared goals.

Sustainability

EPSIS is dedicated to adopting environmentally responsible practices in all our operations, ensuring that our solutions not only meet the needs of today but also preserve the environment for future generations.

Customer-Centric Approach

Our clients are at the heart of everything we do. We tailor our solutions to meet their specific needs, providing personalized services that exceed their expectations.

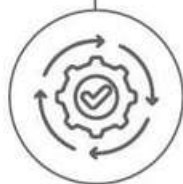

OUR CORE COMPETENCIES

EPSIS is known for our technical expertise and attention to detail. Our core competencies include:

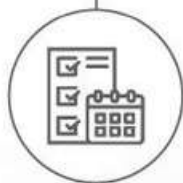

Expertise in Heating, Ventilation, and Air-Conditioning (HVAC) Systems

Our in-depth knowledge allows us to design and maintain highly efficient HVAC systems.

Comprehensive Services

We offer end-to-end solutions from design and installation to maintenance.

Project Management

We ensure timely delivery of large-scale projects with minimal disruption to operations.

Innovative Solutions

We incorporate the latest technology to improve efficiency and reduce operational costs.

BUSINESS OBJECTIVES & STRATEGY

At EPSIS, our business strategy revolves around delivering consistent quality and innovative solutions to our clients. We aim to strengthen our position in the HVAC industry through continuous improvement, strategic partnerships, and leveraging the latest technology. Our key objectives include:

Customer Satisfaction

Providing tailored, efficient solutions that meet client needs.

Growth

Expanding our market presence both locally and regionally.

Sustainability

Implementing eco-friendly and energy-efficient HVAC systems.

OUR SERVICES

EPSIS offers comprehensive services in the Heating, Ventilation, and Air-Conditioning (HVAC) and engineering sectors:

01

Industrial Heating, Ventilation, and Air-Conditioning (HVAC) Troubleshooting & Repair:

We provide quick and efficient troubleshooting and repair services for a wide range of Heating, Ventilation, and Air-Conditioning (HVAC) systems.

02

Industrial HVAC Preventive Maintenance Service:

Preventative maintenance ensures that systems run efficiently, minimizing downtime and extending equipment lifespan.

03

Supply and Install Heating, Ventilation, and Air-Conditioning (HVAC) Equipment:

From chillers to air handling units, we supply and install state-of-the-art Heating, Ventilation, and Air-Conditioning (HVAC) equipment.

04

Consult, Build & Design:

Our team offers consultation services, helping clients design the most effective Heating, Ventilation, and Air-Conditioning (HVAC) systems tailored to their specific needs.

05

Pipe & Line Freezing:

Specialized services for safe and controlled freezing of pipes during construction or maintenance.

06

Rental & Leasing Heating, Ventilation, and Air-Conditioning (HVAC) Equipment:

We offer rental and leasing options for Heating, Ventilation, and Air-Conditioning (HVAC) equipment, ideal for short-term or large-scale projects.

07

HVAC Parts Supply:

We provide a wide range of Heating, Ventilation, and Air-Conditioning (HVAC) parts for different system requirements.

OUR PRODUCT

EPSIS supplies high-quality Heating, Ventilation, and Air-Conditioning (HVAC) products, including:

Chiller

Efficient chillers for large-scale cooling solutions, available in various capacities.

Cooling Tower

High-performance cooling towers designed to provide excellent cooling efficiency.

AHU (Air Handling Unit)

Versatile AHUs designed for various building and facility needs.

FCU (Fan Coil Unit)

Compact and efficient fan coil units for flexible air distribution.

Pump

Durable and energy-efficient pumps for various Heating, Ventilation, and Air-Conditioning (HVAC) systems.

OUR PRODUCT

Explore Our Comprehensive Range of HVAC and Engineering Solutions

Pipe & Line Freezing

Our pipe and line freezing service allows for safe and efficient isolation of sections within piping systems, enabling repairs and modifications without the need for complete system shutdowns.

Rental & Leasing Heating, Ventilation, and Air-Conditioning (HVAC) Equipment

Flexible HVAC equipment rental and leasing solutions for short or long-term needs, offering cost-effective project support.

HVAC Parts Supply

EPSIS supplies a wide range of high-quality HVAC parts to support the maintenance and efficient operation of your systems.

HEALTH, SAFETY & ENVIRONMENT (HSE) COMMITMENT

EPSIS is committed to maintaining high standards of health, safety, and environmental management. We adhere to stringent industry regulations and standards, ensuring the safety of our employees, clients, and the communities we operate in.

SUSTAINABILITY & ENVIRONMENTAL RESPONSIBILITY

At EPSIS, we understand the value of sustainable practices in the HVAC and engineering industry. We are committed to reducing our environmental impact by offering energy-efficient solutions, using eco-friendly materials, and promoting responsible waste management.

Our HVAC systems are designed to optimize energy usage, helping clients reduce their carbon footprint while maintaining cost-effective operations. We also ensure that all our projects adhere to environmental regulations and standards, contributing to a more sustainable future.

KEY INITIATIVES

- **Energy-Efficient Solutions**

All of our HVAC products and services focus on reducing energy consumption without compromising performance.

- **Green Building Practices**

We are committed to using environmentally friendly materials and adopting sustainable practices in all our construction and engineering projects.

- **Waste Management**

We minimize waste and promote recycling in our operations, ensuring compliance with environmental standards.
